PATENT
ATTORNEY DOCKET NO. 08262/017004

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Stuart A. Lipton
Serial No.: 08/346,910
Filed : November 30, 1994
Title : PROTEIN 68075 AND ITS USE FOR REGENERATING NERVE CELL PROCESSES

Art Unit: 1812
Examiner: Gucker, S.

Commissioner of Patents and Trademarks
Washington, DC 20231

SUPPLEMENTAL AMENDMENT AND TRANSMITTAL OF
SIGNED DECLARATION OF
DR. RACHAEL NEVE UNDER 37 CFR §1.132

Further responsive to the action of November 2, 1995,
please amend each of claims 8-10 as follows:

8. (Amended twice) A recombinant nucleic acid
comprising Clone [TR2B] ATCC ⁹⁷⁵²⁵ ~~94525~~.

9. (Amended twice) A recombinant nucleic acid that
hybridizes under stringent conditions with Clone [TR2B] ATCC
97525 and enhances a neuronal regeneration process.

10. (Amended twice) A recombinant nucleic acid that
is a fragment of Clone [TR2B] ATCC 97525 and enhances neuronal
regeneration process.

REMARKS

The above amendment removes the designation TR2B from
the claims. That designation is simply an internal laboratory
designation of no significance to the public. The ATCC access
number unequivocally identifies the clone at issue.

Date of Deposit August 9, 1996
I hereby certify that this correspondence is being facsimile
transmitted to the Patent and Trademark Office on the date
indicated above.

James H. Butler
